

Accessories

IcyFoam Cleaner for Foam

The best product for cleaning cured foam off your rig and equipment.

IcyFoam Cleaner for Liquid Foam

The best product for cleaning liquid foam components off your rig and equipment.

IcyFoam Protector (DC315)

Applied as a coating over H2Foam Lite serves as a thermal barrier ("Alternative Barrier Coating System"). With 1 layer of IcyFoam Protector over H2Foam Lite we achieve classification C for reaction to fire, S2 for smoke production and d0 for flaming droplets/particles. With 2 layers of IcyFoam Protector over H2Foam Lite we achieve classification for reaction to fire B, for smoke production S1 and d0 for flaming droplets/particles.

Drum Lids

Lids are available in two sizes – smaller for EU drums and larger for drums from US. Both types feature three slots (for the agitator/hose/pump) and two handles for easy manipulation.

Spray Foam Hand Saw

Our top quality hand-made spray foam saw feature a serrated blade perfectly trims and forms finished foam. The saw is available in two sizes: 45 and 80 cm.

About Icynene

ICYNENE Established in 1986, Icynene Inc. offers a complete portfolio of high-performance spray foam insulation solutions. In the past 30+ years, more than 3 billion board feet of Icynene spray foam insulation has been installed in more than 425,000 residential and commercial projects. Icynene is a leader of high performance building material innovations aimed at optimizing the building envelope and maximizing energy efficiency.

Available in more than 31 countries, Icynene is a global manufacturer and supplier of spray polyurethane foam for insulation and roofing applications, reflective roof coatings and equipment. Serving architects, Icynene Europe SPRL is a full subsidiary of Icynene Inc. Icynene Europe's range of high performance H2FOAM and IcyFoam spray foam insulation products have been specially formulated by Icynene Inc for the European market and building code requirements.

Architect's Library

The Architect's Library is a tool for architects and builders, which includes numerous construction drawings with performance specifications using the Icynene products. You can find it on our web sides www.icynene.eu. Advantages of the "Architect's Library":

- saves you time when you approach an architect with a proposal
- helps convince architects and facilitates managers with a professional 3D approach
- drawings and instructions available in .PDF and .DWG formats

Icynene Awards

Industry Recognized, Industry Leading

The Hanley Wood Brand Builder Awards recognize Icynene as the most innovative and effective marketing campaigns throughout the residential and commercial design and construction industry.

Icynene received Home Improvement Executive's first place 2013 Innovation Award for outstanding features in Fall Protection Equipment and Attic Ladders.

Award from The Architizer A+Awards -the largest awards program focused on promoting and celebrating the year's best architecture and products.

Icynene has been chosen as one of the Top 100 Products for the new home construction market by Professional Builder magazine.

Professional Builder magazine Top 100 New Building Products 2014 for Icynene H2Foam Lite.

Icynene was awarded a 2014 Product Innovation Award from Architectural Products.

2014 Hot 50 Product - Green Builder magazine for Icynene H2Foam Forte.

Award from Architectural Record magazine in the Record Products Nomination.

H₂Foam LITE

H2Foam Lite is the insulation product that has helped build Icynene's reputation for 30 years. This water-based open-cell foam has been used to insulate hundreds and thousands of buildings around the world, proving its superiority to traditional insulation.

- Air-filled cells, odourless, contains no volatile organic compound (VOC) or formaldehyde (rated A+)
- Remains flexible, does not shrink over time
- It will make sure your house is airtight
- Permeable to water vapour: does not trap moisture in the wall ($\mu = 3.3$)
- Expands without any ozone-depleting gases
- Fire Class: E

PRODUCT FEATURES

- Density = 8 kg/m³
- Lambda = 0.038
- Yield = 40 m³/set

H₂Foam LITE PLUS

H2Foam Lite Plus is simply the best performing open cell foam insulation in the market! H2Foam Lite Plus is 100% water blown. Ideal for use in a broad range of substrates, temperatures and humidity conditions.

- Air-filled, odourless cells contain no volatile organic compound or formaldehyde (rated A)
- Permeable to water vapour: does not trap moisture that may form in the walls ($\mu = 4.3$)
- Adhesion to all materials
- Remains flexible, does not shrink over time
- Fire Class: E

PRODUCT FEATURES

- Density = 11 kg/m³
- Lambda = 0.0355
- Yield = 35 m³/set

IcyFoam Select

Introducing Europe's first closed-cell HFO spray foam insulation to bear a CE Marking - **IcyFoam Select**. This product is suitable for use in residential and commercial construction. Icynene IcyFoam Select evolved closed-cell SPF to the next level.

- Excellent sprayability and adhesion
- Low VOC formulation
- No odour
- Low global warming potential
- Environmentally sensitive
- Fire Class: E

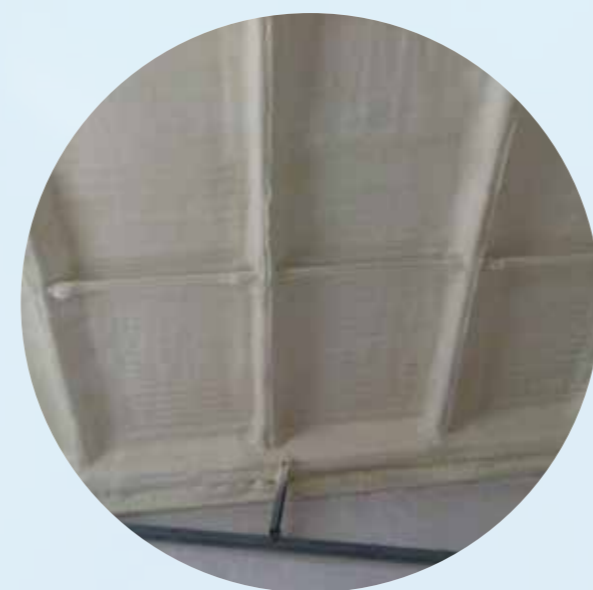

PRODUCT FEATURES

- Density = 37 kg/m³
- Lambda = 0.026
- Yield = 11 m³/set

IcyFoam Basic

Advanced closed-cell spray foam insulation Icynene **IcyFoam Basic** sets a new benchmark in sprayability and performance. This product is ideal for use in all areas including uneven or difficult-to- insulate spaces.

- Offers performance and construction advantages
- High insulating value
- Air sealing properties
- Superior adhesion
- Fire Class: E

PRODUCT FEATURES

- Density = 40 kg/m³
- Lambda = 0.027
- Yield = 11 m³/set

IcyFoam Fill

IcyFoam Fill is an insulation and air barrier, the best product for cavity walls and tanks. IcyFoam Fill the wall cavity completely, starting at the bottom and slowly expanding upwards to 60 times its initial volume. Since Icynene expands in the direction of least resistance, it will not expand outward and damage the wall.

- High insulating value
- Superior adhesion
- Low VOC formulation
- Low global warming potential
- Fire Class: E

PRODUCT FEATURES

- Density = 37 kg/m³
- Lambda = 0.027
- Yield = 10 m³/set

IcyFoam QuickFill

Get on with the job quickly with Icynene's new IcyFoam QuickFill spray foam insulation repair kits! Spray foam insulation repair kits with excellent sprayability and adhesion properties. Perfect to insulate and air seal hard-to-reach, small, and irregular areas.

- Small hole repairs and touch-ups following access to plumbing or electrical
- Sealing basement still plates
- Sealing band joists
- Touching up attic rafters or stud wall cavities

PRODUCT FEATURES

- Lambda = 0,035
- Yield = 35 litres from 1 can
